

Dear Parent,

STEM orients Hands-On Learning Programs are changing the education landscape in India at the fastest rate.

Some opportunity is being offered to the willing students of classes VIII-XI. Robotics is a field that has inspired thousand of students to take career in the domain of Science and Technology. It aims to make learning of STEM (STEM is an acronym for Science, Technology, Engineering, and Mathematics) concept a fun filled and engaging experience.

The program will be conducted under the able guidance of STEM educationists and expert team of IIT-IIM Alumni within school campus. All the material required for projects will be provided by team.

ARDUINO ROBOTICS : Class 8-10

Design, construction and programming of Arduino based, Sensor driven Mobile controlled Robots

Benefits:

1. Brain Development with enhanced creativity, problem solving and higher order thinking abilities
2. Develop Scientific Temper and interest in Maths, Science and Technology
3. Learn to Program
4. Relate to real life applications of STEM subjects

The fee for the whole program will be Rs 3500 per student including the cost of basic kit. In case your ward wants to join this program, kindly send the consent slip along with cheque of Rs. 3500 in favour of _____ by 5th December, 2017.

Duration of program: 4 months.

An exhibition would be organized after the workshops for parents to witness the work of children.

Give your child the understanding of the latest technology at the right time and see him/her blossom into creative problem solvers who understand science and technology, are smarter and more engaged global citizens, ready to take on the challenges of life.

Consent Slip

The Principal
Ascent International School

I allow my ward _____ of class/ section _____ Admission No _____ to join the Robotic Programme for the session 2017-18, Cheque No _____ is enclosed.
